

## Progreso Apoyo Higher Education Program

### Call for New Sponsors

In 2025, 26 of our students are graduating from high school and are preparing to attend college, university or a technical institute. Our new **Progreso Apoyo Higher Education Program** is designed to help our students continue to their education with the support of their existing sponsors, or with new sponsors if a student's sponsor is unable to continue their support. Most of our students are the first in their family to attend college. **This year, we are looking for at least 5 new sponsors to help students pay for college.**

The cost of higher education in Mexico varies greatly depending on the school or the program a student attends. There is only one institution of higher learning in Progreso, so the majority of our students travel into Merida everyday to attend college. Annual costs to receive a college education vary between \$10,000MX - \$30,000MX per year, plus the cost of transportation to and from Merida.

Sponsors in our **Higher Education Program** commit a minimum of \$5,000 MX per year to help their student, but many of them offer more, depending on the cost of their student's college program. Sponsor fees are billed twice per year – during the first two months of the year and again during the summer. Sponsors will receive regular reports about their student's progress in college.

If you wish to join our program as a **Higher Education Program sponsor**, please complete the form below and return it to us by email at [info@progresoapoyo.org](mailto:info@progresoapoyo.org) or by WhatsApp: +52-999-433-3851. We will be in touch with you to let you know more about the students who need help with college expenses.
